

Write automation test script with below details:

1. Navigate to Yatra.com
2. Search for Round trip flights from Delhi to Mumbai
3. Dep Date: 24th May, Return Date: 26th May
4. With 2 Adults Economy class (as shown below)
5. Mark checkbox - Non-Stop flights
6. Click on Search to get list of flights

The screenshot displays the Yatra website's flight booking form. At the top, the Yatra logo is on the left, and navigation links for Flights, Hotels, Villas & Stays, and Buses are on the right. The main heading is "Book Flights, Hotels and Holiday Packages". Below this, there are three tabs: "ONE WAY", "ROUND TRIP" (which is selected and highlighted in red), and "MULTI-CITY". The "Depart From" field is set to "New Delhi" (DEL) and the "Going To" field is set to "Mumbai" (BOM). The "Departure Date" is "24 Feb' 21" (Wednesday) and the "Return Date" is "26 Feb' 21" (Friday). The "Traveller(s), Class" section shows "2 Travellers, Economy". Below this, there are three columns for "Adults", "Child (2-12 YRS)", and "Infant (Below 2 YRS)". The "Adults" column has a value of 2, while "Child" and "Infant" are both 0. The "Economy" class is selected with a radio button. Other class options are "Premium Economy" and "Business". A "Non Stop Flights" checkbox is checked. A red "Search Flights →" button is located at the bottom right of the form.
